[< 4.7 Youth work to foster social inclusion](#)

- [Up](#)
- [5. Participation >](#)

Main discussions and developments in the area of social exclusion are:

- decentralization and de-institutionalization of social services, including the aim to see more services provided at the local level by the NGO sector;
- development of e-services;
- effectiveness and impact of services including youth work services;
- sustainability of the social protection system and social services provision in the light of the aging population.
