

2.8 Current debates and reforms

In the end of 2019, the Ministry of Labor and Social Policy announced adoption of new Law on Volunteering and new Strategy for Development of Volunteerism. This idea was also discussed during the National forum for volunteering in December 2019 when the necessity for development of New Strategy for Volunteering was emphasized.

To this day (October, 2020) the strategy is not developed yet, and it is unclear when exactly this document will be created.
